

# BUILDING DEPARTMENT POLICY / INTERPRETATION

---

**TO:** Whom it may concern  
**FROM:** George Reid, Chief Building Official  
**DATE:** April 4, 2018  
**SUBJECT:** Construction Valuations

The Vineyard City Building Department assesses building permit fees based off the consolidated fee schedule adopted by City Council. The fee schedule uses a scaled formula based on the valuation of the proposed construction.

The Building Department uses the building valuation data published by International Code Council (ICC). ICC publishes updated valuation data tables in February and August of each year. The information included in the building valuation data shows the nationally recognized value of construction per square foot for each type of building construction.

It is the policy of Vineyard City to review and adopt the valuation data annually in March. Building permit costs may increase or decrease depending on the valuation data released by ICC.

Please contact the Building Department at (801) 226-1929 with questions regarding this policy.

Chief Building Official

A handwritten signature in black ink, appearing to be "George Reid", is written over a horizontal line.
